KC Water is getting ready to upgrade the stormwater drainage pipes and other infrastructure on or near property in your neighborhood.

We will be upgrading the storm sewers, adding new inlets, installing stormwater pipes, and constructing drainage swales along 73rd Street west of Cleveland Avenue and on property a few doors south of 73rd Street on Cleveland.

STORMWATER IMPROVEMENTS

Near 73rd Street and Cleveland Avenue

WHAT'S HAPPENING?

KC Water covers 320 square miles of Kansas City with an intricate network of water, wastewater and stormwater systems, including 630 miles of storm sewers, 53,000 stormwater inlets, and 15 stormwater pumps stations. Some of that infrastructure needs to be updated.

This project was requested through the Public Improvement Advisory Committee (PIAC) process. Eligible PIAC projects include stormwater drainage and flooding problems.

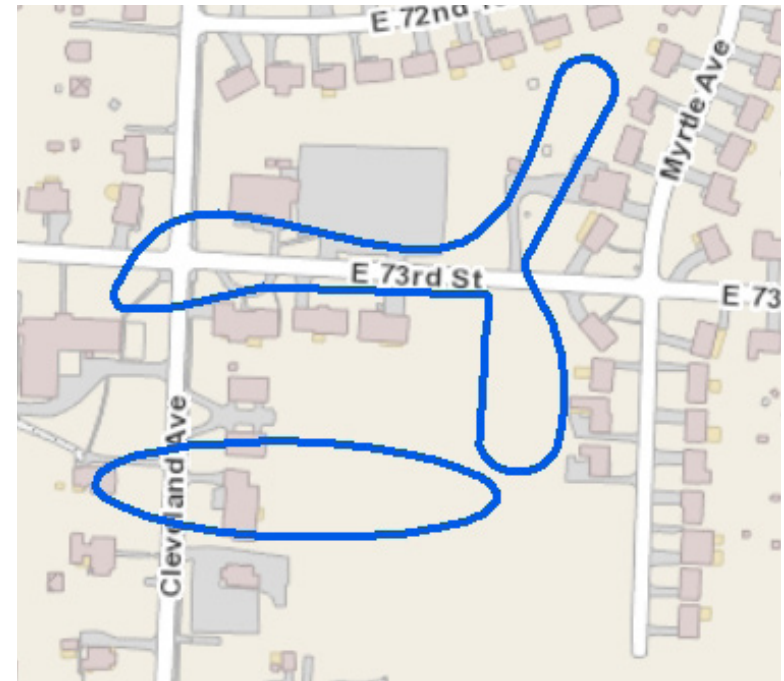

Work will occur from January 2021 through approximately June 2021, as the weather allows.

HOW WILL THIS AFFECT ME?

- Streets or traffic lanes may be temporarily blocked, but you will always be able to drive to your property.
- Large equipment will create noise and dust, which will be controlled.
- We will restore any street, curbs, driveways and sidewalks disturbed by the sewer work. We will restore lawns in season.
- The improvements are designed to reduce erosion in the area and to reduce the risk of flooding that can damage property.

HOW CAN I LEARN MORE?

- Attend the online public meeting. Details on front. Can't make it? A recording will be posted at www.kcwater.us/projects/current-projects.
- Point a smartphone camera on the code on this page and open the Projects website. Click on "Stormwater Improvement: 73rd St. and Cleveland Ave."
- Visit www.kcwater.us/projects/current-projects and click on "Stormwater Improvement: 73rd St. and Cleveland Ave."
- Contact the Project Manager: Diana Johnson, Project Manager, KC Water, 816-513-0376 or Diana.M.Johnson@kcmo.org

THANK YOU!

These are important storm sewer infrastructure improvements for you, your neighbors, and the City. We are grateful for your patience, cooperation and support as we upgrade Kansas City together.
