Conference ID: 489 997 674#

KC Water will soon begin construction of a bank and stream stabilization project behind homes between NE 108th Street and NE 109th Street, west of N. Manning Avenue.

Work will begin on the west side of N. Manning Avenue and extend approximately 400 feet west through back yards.

This project is designed to increase stormwater conveyance capacity, and improve drainage in the area.

STORMWATER IMPROVEMENTS

In the Area of 9005 NE 109th St.

WHAT'S HAPPENING?

KC Water covers 320 square miles of Kansas City with an intricate network of water, wastewater and stormwater systems, including 630 miles of storm sewers, 53,000 stormwater inlets, and 15 stormwater pumps stations. Some of that infrastructure needs to be updated.

This project was requested through the Public Improvement Advisory Committee (PIAC) process. Residents request and the committee recommends citywide and capital improvement projects. Eligible PIAC projects include stormwater drainage and flooding problems.

HOW WILL THIS AFFECT ME?

- Streets or traffic lanes may be temporarily closed, but you will always be able to drive to your property.
- Large equipment will create noise and dust, which will be controlled.
- We will restore lawns as the season permits. We will also restore any streets, curbs, driveways and sidewalks affected by the work.
- The improvements are designed to reduce erosion in the area and to reduce the risk of flooding that can damage property.

HOW CAN I LEARN MORE?

- Attend the online public meeting. Details on front. Can't make it? A recording will be posted at www.kcwater.us/projects/current-projects.
- Point a smartphone camera on the code on this page and open the Projects website. Click on "Stormwater Improvements: Area of 9005 NE 109th St."
- Visit www.kcwater.us/projects/current-projects and click on "Stormwater Improvements: Area of 9005 NE 109th St."
- Contact the Project Manager: Diana Johnson, KC Water, 816-513-0376 or diana.johnson@kcmo.org

THANK YOU!

These are important water infrastructure improvements for you, your neighbors, and the City. We are grateful for your patience, cooperation and support as we upgrade Kansas City together.
