Phone 872-212-5076 (toll)

Conference ID: 525 631 394#

KC Water is replacing about 1.7 miles of break-prone, 2-inch, 6-inch, 8-inch, and 16-inch cast-iron pipe with more durable ductile-iron pipe to reduce main breaks and improve water service to property you own or occupy at [property address].

Your block may be temporarily disrupted by construction work while we install the new water main and transfer water service. This project will improve distribution system reliability and support fire protection.

WATER MAIN REPLACEMENT

In the Area of Emanuel Cleaver II Boulevard to Topping Avenue, 39th Street to 43rd Street

WHAT'S HAPPENING?

KC Water covers 320 square miles of Kansas City with an intricate network of nearly 2,800 miles of water pipelines, control valves, storage tanks, pump stations, and more. Some of that infrastructure is more than a century old.

This project is part of a comprehensive master plan to reduce water main breaks, increase reliability, and enhance fire protection. By keeping the system up to date, Kansas Citians will have improved service now and sustainable water service for generations to come.

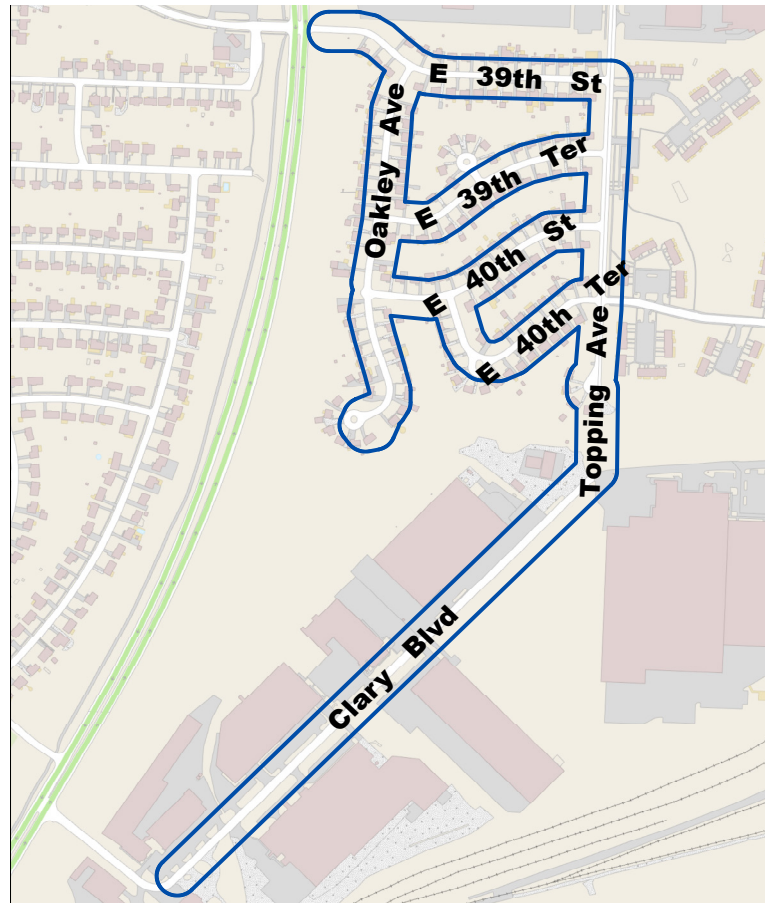

HOW WILL THIS AFFECT ME?

- Streets or traffic lanes may be temporarily closed, but you will always be able to drive to your property.
- Large equipment will create noise and dust, which will be controlled.
- We will restore any street, curbs, driveways and sidewalks disturbed by the water work. We will restore lawns in season.
- Water service will be shut off for brief periods. You will get advance notice.
- If your water meter is inside, we will move it outside.

HOW CAN I LEARN MORE?

- Attend the online public meeting. Details on front. Can't make it? A recording will be posted at www.kcwater.us/projects/current-projects.
- Contact Bill Clark, Pyramid Excavation, 913-208-0743 or john@pyramidexcavation.com
- Contact John Wright, Pyramid Excavation, 816-238-5991 or john@pyramidexcavation.com
- Contact Prema Railey, KC Water Resident Inspector, 816-308-5940 or prema.railey@kcmo.org
- Contact Christian Hoyos, KC Water Project Manager, 816-513-0363 or christian.hoyos@kcmo.org

THANK YOU!
