Phone 872-212-5076 (toll)

Conference ID: 585 173 270#

KC Water is replacing about 1.7 miles of break-prone, 2-inch, 6-inch and 8-inch pipe with more durable ductile-iron pipe to reduce main breaks and improve water service to property you own or occupy at [property address].

Your block may be temporarily disrupted by construction work while we install the new water main and transfer water service. This project will improve distribution system reliability and support fire protection.

# WATER MAIN REPLACEMENT

In the Area of Bennington Avenue to James A. Reed Road, E. 63rd St. to E. 67th St.

## WHAT'S HAPPENING?

KC Water covers 319 square miles of Kansas City with an intricate network of nearly 2,800 miles of water pipelines, control valves, storage tanks, pump stations, and more. Some of that infrastructure is more than a century old.

This project is part of a comprehensive master plan to reduce water main breaks, increase reliability, and enhance fire protection. By keeping the system up to date, Kansas Citians will have improved service now and sustainable water service for generations to come.

## HOW WILL THIS AFFECT ME?

- Streets or traffic lanes may be temporarily closed, but you will always be able to drive to your property.
- Large equipment will create noise and dust, which will be controlled.
- We will restore any street, curbs, driveways and sidewalks. We will restore lawns during planting season.
- Water service will be shut off for brief periods. You will get advance notice.
- If your water meter is inside, we will move it outside.

## HOW CAN I LEARN MORE?

- Attend the online public meeting. Details on front. Can't make it? A recording will be posted at [www.kcwater.us/projects/current-projects](http://www.kcwater.us/projects/current-projects).
- Visit [www.kcwater.us/projects/current-projects](http://www.kcwater.us/projects/current-projects) and click on the Bennington to James A Reed project link.
- Contact Brian Heastan, Kissick Construction Superintendent, 816-351-1560 or [bheastan@kissickco.com](mailto:bheastan@kissickco.com)
- Contact Spencer Moore, Kissick Project Manger 816-699-9710 or [smoore@kissickco.com](mailto:smoore@kissickco.com)
- Contact William Hack, KC Water Resident Inspector, 816-352-4834 or [William.Hack@kcmo.org](mailto:William.Hack@kcmo.org)
- Contact Christian Hoyos, KC Water Project Manager, 816-513-0363 or [christian.hoyos@kcmo.org](mailto:christian.hoyos@kcmo.org)

## THANK YOU!

These are important water infrastructure improvements for you, your neighbors, and the City. We are grateful for your patience, cooperation and support as we upgrade Kansas City together.
