

# INVESTING IN KC

## WATER MAIN REPLACEMENT COMING

**In the Area of Superior St.  
to I-435 and Gardner Ave.  
to E. 9th St.**

**February to December 2024**

### WHAT'S HAPPENING IN YOUR NEIGHBORHOOD - HOW TO LEARN MORE

KC Water is replacing about 1.9 miles of break-prone water mains in the Columbus Park/Paseo West/Downtown areas, including at or near property you own or occupy at [property address].

Learn more on the KC Water website. You also are invited to meet the project team in a live, online question-and-answer session. See other side for details.

Kansas City's water system is an intricate network of nearly 2,800 miles of water pipelines, control valves, storage tanks, pump stations, and more. This initiative in the neighborhood is part of a comprehensive program to improve water service now and provide sustainable water service for generations to come.

## How Will This Affect Me?

- Traffic lanes may be temporarily closed, but you will always be able to drive to your property.
- Large equipment will create noise and dust, which will be controlled.
- Water service will be shut off for brief periods. You will get advance notice.
- If your water meter is inside, we will move it outside.
- We will restore the street, curbs, driveways and sidewalks. We will restore lawns during in planting season.

## Contact the Project Team

Before, during, or after your new water main is installed, we're ready to respond. Contact us anytime. We will reply promptly during regular business hours.
