

INVESTING IN KC

WATER MAIN REPLACEMENT COMING

In the Area of 11th St. to 17th St. and Main St. to Jefferson St.

February 2024 to May 2025

What's Happening in Your Neighborhood; How to Learn More

KC Water is replacing about 0.7 of a mile of break-prone water mains Downtown.

Learn more in a video you can view on the KC Water website. You also are invited to meet the project team in a live, online question-and-answer session on Feb. 21. Details on the reverse side.

Kansas City's water system is an intricate network of nearly 2,800 miles of water pipelines, control valves, storage tanks, pump stations, and more. This initiative in the Western Hills neighborhood is part of a comprehensive program to improve water service now and provide sustainable water service for generations to come.

How Will This Affect Me?

- Traffic lanes may be temporarily closed, but you will always have access to your property.
- Large equipment will create noise and dust, which will be controlled.
- Water service will be shut for brief periods. You will get advance notice.
- If your residence water meter is inside, we will move it outside.
- We will restore the street, curbs, driveways and sidewalks. We will restore lawns in season.

Map of the Area

THANK YOU! We intend to improve your water service with as little disruption as possible. We are grateful for your patience, cooperation, and support as we upgrade Kansas City together.
