

# INVESTING IN KC

## WATER MAIN REPLACEMENT COMING

In the Area of Truman Road to 27th St. and Grand Blvd. to Brooklyn Ave.

March 2024 to November 2024

### What's Happening in Your Neighborhood; How to Learn More

KC KC Water is replacing about one mile of break-prone water mains in the Crossroads, Crown Center, Washington Wheatly and Wendell Phillips neighborhoods.

Learn more in a video you can view on the KC Water website. You also are invited to meet the project team in a live, online question-and-answer session on Feb. 21. Details on the reverse side.

Kansas City's water system is an intricate network of nearly 2,800 miles of water pipelines, control valves, storage tanks, pump stations, and more. This initiative in the Western Hills neighborhood is part of a comprehensive program to improve water service now and provide sustainable water service for generations to come.

### How Will This Affect Me?

- Traffic lanes may be temporarily closed, but you will always have access to your property.
- Large equipment will create noise and dust, which will be controlled.
- Water service will be shut for brief periods. You will get advance notice.
- If your residence water meter is inside, we will move it outside.
- We will restore the street, curbs, driveways and sidewalks. We will restore lawns in season.

### Map of the Area

**THANK YOU!** We intend to improve your water service with as little disruption as possible. We are grateful for your patience, cooperation, and support as we upgrade Kansas City together.
