

**Directions: Imagine a new town that has solved all water quality and pollution problems. Draw what you think this town would look like. Be sure to color your water source (the river). You may also label things to help explain your work.**

A large, empty rectangular area with a thick green border, intended for drawing. At the top, a blue line represents a river, which is slightly shaded in light blue. The rest of the area is blank white space for drawing a town.

**New Town**
