

# INVESTING IN KC

## WATER MAIN REPLACEMENT

**In the Area of Jarboe Street to Brooklyn Avenue, W. 79th Street to E. 86th Street**

Replacing approximately 10,453 total feet of break-prone 4-inch, 6-inch, and 8-inch cast iron pipe water mains in the area of Jarboe Street to Brooklyn Avenue and W. 79th Street to E. 86th Street.

— Project Work

## PUBLIC MEETING

**What:** Water Main Replacement

**When:** Wednesday, Feb. 20, 2019, 6 p.m.

**Where:** Marlborough Community Center  
8200 The Paseo Boulevard  
Kansas City, MO 64131

**March 2019 to November 2019**

# YOUR INVESTMENTS AT WORK

## WATER MAIN REPLACEMENT

In the Area of Jarboe Street to Brooklyn Avenue, W. 79th Street to E. 86th Street

### WHAT

- Important infrastructure work will be performed in your neighborhood.
- Water mains will be replaced and realigned throughout the project.

### WHY

- KC Water is undertaking this project to improve distribution system reliability, increase hydraulic conveyance capacity, and support fire protection.

### WHEN

- Weather permitting, work will begin in March 2019 and conclude approximately November 2019.

### WHO

- KC Water in partnership Rodriguez Mechanical Contractors Inc.

### WHERE

- Replacing 4-inch cast iron pipe with 650 feet of 8-inch ductile iron pipe along Bellevue Avenue from W. 80th Street to W. 79th Street.
- Replacing 6-inch cast iron pipe with 432 feet of 8-inch ductile iron pipe and 27 feet of 6-inch ductile iron pipe along W. 81st Street, Jarboe Street to Bellevue Avenue.
- Replacing 8-inch cast iron pipe with 702 feet of 8-inch ductile iron pipe along Jefferson Street, W. 81st Street to W. 80th Street.

- Replacing 4-inch cast iron pipe with 627 feet of 8-inch ductile iron pipe along Pennsylvania Avenue, W. 81st Street to W. 80th Street.
- Replacing 4-inch cast iron pipe with 721 feet of 8-inch ductile iron pipe along Washington Avenue, W. 81st Street to W. 80th Street.
- Replacing 6-inch cast iron pipe with 1,277 feet of 8-inch ductile iron pipe along E. 79th Street, Main Street to Oak Street.
- Replacing 6-inch cast iron pipe with 1,079 feet of 8-inch and 72 feet of 12-inch ductile iron pipe required for connections along E. 80th Street, Oak Street to Kenwood Avenue
- Replacing 4-inch cast iron pipe with 928 feet of 8-inch ductile iron pipe and 85 feet of 12-inch ductile iron pipe required for connections along E. 83rd Street, McGee Street to Locust Street.
- Replacing 6-inch cast iron pipe with 527 feet of 8-inch ductile iron pipe along the Paseo, E. 83rd Street to E. 82nd Street.
- Replacing 4-inch and 6-inch cast iron pipe with 1,533 feet of 8-inch ductile iron pipe along E. 83rd Street, Lydia Avenue to the Paseo.
- Replacing 4-inch cast iron pipe with 711 feet of 8-inch ductile iron pipe along Woodland Avenue, E. 86th Street to 1775 Woodland Avenue.
- Replacing 4-inch cast iron pipe with 571 feet of 8-inch ductile iron pipe along the Paseo, E. 85th Street to E. 84th Street.
- Replacing 4-inch cast iron pipe with 511 feet of 8-inch ductile iron pipe along Flora Avenue, 8525 Flora to E. 85th Street.

### QUESTIONS?

**Specific questions about this project can be directed to:**

- Sean Allen, Resident Inspector, KC Water, 816-898-1526, [sean.allen@kcmo.org](mailto:sean.allen@kcmo.org)
- Brad Webb, Project Manager, Rodriguez Mechanical, 913-281-1814, [brad@rmckc.com](mailto:brad@rmckc.com)
- Kelly Finn, Project Manager, KC Water, 816-513-0351, [kelly.finn@kcmo.org](mailto:kelly.finn@kcmo.org)

### IMPROVEMENTS

- Increased reliability
- Fewer service disruptions
- Enhanced neighborhood fire protection

### WHAT TO EXPECT

- Large equipment will be used, creating noise and dusty conditions, which will be controlled.
- Affected curbs, driveways, and other pavement will be replaced.
- Disturbed lawn areas will be restored after work is completed and as the planting season permits.
- Ordinary travel routes may be temporarily restricted.
