

INVESTING IN KC

WATER MAIN REPLACEMENT COMPLETION

In the Area of Burning Tree Drive to W. 139th
Street and Saint Andrews Drive to Wornall Road

October 2021 to September 2022

Stalled Project to Be Finished by New Contractor

Thank you for your patience while KC Water worked through a contractor issue. A new contractor has been engaged to complete the water main replacement project begun in your area last fall.

This project replaces about 1.4 miles of break-prone 2-inch, 6-inch, 8-inch, and 12-inch cast iron pipe water mains with more durable ductile iron pipe. Work will resume in a few days and will be completed as quickly as possible. Not only will the neighborhood receive new water mains, but also we will restore driveways, sidewalks, curbs, gutters and lawns to their original condition.

Construction work may be temporarily disruptive, but the project will improve water distribution reliability, increase the amount of water that can be conveyed, and enhance fire protection.

WATER MAIN REPLACEMENT

In the Area of Burning Tree Drive to W. 139th Street and Saint Andrews Drive to Wornall Road

WHAT'S HAPPENING?

KC Water covers about 319 square miles of Kansas City with an intricate network of nearly 2,800 miles of water pipelines, control valves, storage tanks, pump stations, and more. Some of that infrastructure is more than a century old.

This project is part of a comprehensive master plan to reduce water main breaks, increase reliability, and enhance fire protection. By keeping the system up to date, Kansas Citians will have improved service now and sustainable water service for generations to come.

HOW WILL THIS AFFECT ME?

- Streets or traffic lanes may be temporarily closed, but you will always be able to drive to your property.
- Large equipment will create noise and dust, which will be controlled.
- We will restore any street, curbs, driveways and sidewalks. We will restore lawns during planting season.
- Water service will be shut off for brief periods. You will get advance notice.
- If your water meter is inside, we will move it outside.

HOW CAN I LEARN MORE?

- Visit www.kcwater.us/projects/current-projects and the link for “Water Main Replacement: Burning Tree Drive to W. 139th Street and Saint Andrews Drive to Wornall Road.”
- Contact Royce Hettinger, Project Manager, Hettinger Excavating LLC, 816-786-4593 or tina@hettingerxlt.com
- Contact Gregg Gillaspie, Resident Inspector, KC Water, 816-216-9258 or Gregg.Gillaspie@kcmo.org
- Contact Nimesha Senanayake, Project Manager, KC Water, at 816-513-0460 or Nimesha.Senanayake@kcmo.org

THANK YOU!

These are important water infrastructure improvements for you, your neighbors, and the City. We are grateful for your patience, cooperation and support as we upgrade Kansas City together.
