

INVESTING IN KC

WATER SERVICE IMPROVEMENTS COMING

Along NW Waukomis Drive from NW
Englewood Road to NW 64th St.

October 2021 to February 2022

Stalled Project to Be Finished by New Contractor

Thank you for your patience while KC Water worked through a contractor issue. A new contractor has been engaged to complete the water main replacement project begun in your area last fall.

This project replaces about one mile of break-prone 24-inch, 8-inch, and 6-inch of pre-stressed concrete pressure pipe, cast iron pipe, and ductile iron pipe with more durable and in some cases larger ductile iron pipe. Work will resume in a few days and will be completed as quickly as possible. Not only will the neighborhood receive new water mains, but also we will restore driveways, sidewalks, curbs, gutters and lawns to their original condition.

Construction work may be temporarily disruptive, but the project will improve water distribution reliability, increase the amount of water that can be conveyed, and enhance fire protection.

WATER MAIN REPLACEMENT

Along Waukomis Drive from NW Englewood Road to NW 64th St.

WHAT'S HAPPENING?

KC Water covers 319 square miles of Kansas City with an intricate network of nearly 2,800 miles of water pipelines, control valves, storage tanks, pump stations, and more. Some of that infrastructure is more than a century old.

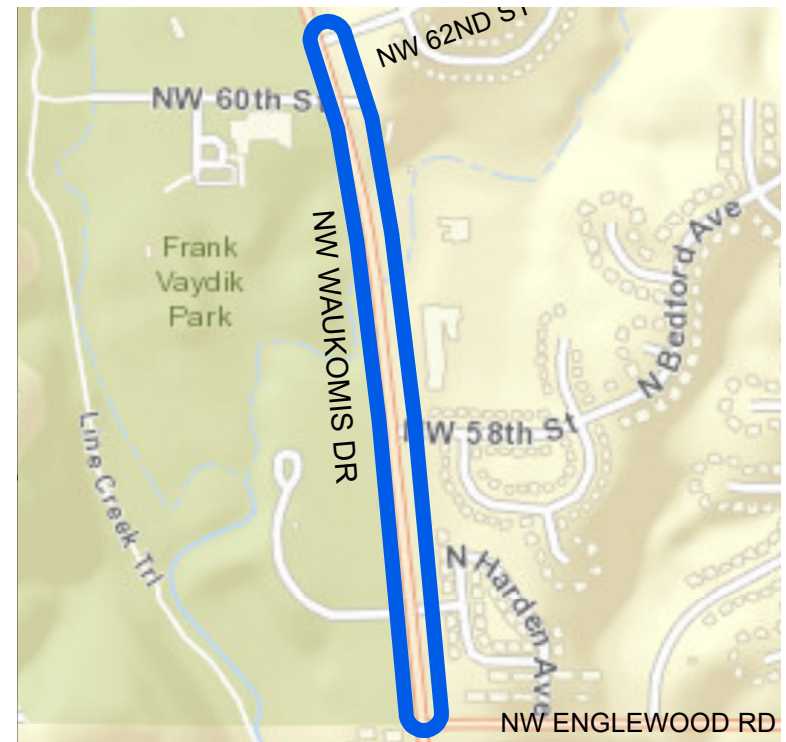

This project is part of a comprehensive master plan to reduce water main breaks, increase reliability, and enhance fire protection. By keeping the system up to date, Kansas Citians will have improved service now and sustainable water service for generations to come.

HOW WILL THIS AFFECT ME?

- Streets or traffic lanes may be temporarily closed, but you will be able to drive to your property.
- Large equipment will create noise and dust, which will be controlled.
- Water service will be shut off for brief periods. You will get advance notice.
- If your water meter is inside, we will move it outside.
- We will restore the street, curbs, driveways and sidewalks. We will restore lawn as the season permits.

HOW CAN I LEARN MORE?

- Visit www.kcwater.us/projects/current-projects and click on “Water Main Replacement: Along Waukomis Drive from NW Englewood Road to NW 64th Street.”
- Contact Nick Kisner, Project Manager, Site Rite Construction Co., 816-520-3063 or nkisner@siterite1.com
- Contact David Miller, Resident Inspector, KC Water, 816-797-6819 or David.miller@kcmo.org
- Contact Jerry Stevens, Project Manager, KC Water, 816-513-0446 or Jerald.stevens@kcmo.org

THANK YOU!

These are important water infrastructure improvements for you, your neighbors, and the City. We are grateful for your patience, cooperation and support as we upgrade Kansas City together.
